Re: Northern Arizona Energy Project

Dear Chairman Gleason:

On behalf of the Kingman Unified School District, I would like to express our support for the proposed Northern Arizona Energy Project being developed by LS Power. This project will directly benefit the District through the property taxes it will pay into the community.

The Kingman area is experiencing unprecedented growth and causing a strain on aging school facilities and infrastructure. Industrial projects that are capital intensive, like Northern Arizona Energy, increase the property tax base and help us address our capital needs.

LS Power has proven itself to be a good corporate citizen in Kingman. They have held public meetings to explain their project and made themselves available to answer questions.

We urge you to support this important project.

Sincerely,

Gary Blanton
Director of Facilities
Kingman Unified School District #20

Arizona Corporation Commission
